

JX2-S

The Trailer Valet JX 2K Side is a manual hand-crank jack that has the versatility and capability to be powered by any 20-24V compact drill with the Trailer Valet Drill Attachment. It has a lift capacity of 2,000 lbs and its patented gear material composition delivers maximum efficiency while reducing heat retention. We've built in a sleeve fitting to offer the ultimate protection while ensuring a smooth glide every time. The JX 2K Side comes with a pull pin swivel bracket, weather resistant shield protection, and is topped with our signature wrinkle black powder coating so that you can go further, longer.

2K

WEIGHT CAPACITY

GO ANYWHERE

Wrinkle black powder coating provides up to 700 hours of corrosion resistance - and a stylish black-on-black look

STRENGTH AND SPEED

Raise and lower with a hand crank or power up with the Trailer Valet Drill Attachment (TVDA) and any 20-24V drill

PULL-PIN SWIVEL SIDE MOUNT

FOOTPLATE

Removable footplate gives the jack balance and support

* OPTIONAL JACK CASTER WHEEL
